LinkedIn

Additional Information

Achievements:

- Discovery Piscine (HTML, CSS, JS, Python)
- Hackathon awards (Digiteq, Greenhack)

School Network Experience

Currently studying at 42 Prague, working on C and C++ based school projects, including systems-level programming and collaborative hackathon projects.

Experience includes:

- Discovery Piscine (HTML, CSS, JavaScript) – completed May 2024
- Discovery Piscine (Python) – completed September 2024
- Hackathon team project – Digiteq image handling challenge (2nd place, 2024/2025)
- Greenhack team project – Solar power platform (May 2024)

About Me

I am a software developer student at 42 Prague with a background in structural engineering. My journey into tech began with a passion for improving processes and grew into a focus on software engineering. I am committed, motivated, and thrive in fast-paced environments that reward persistence, creativity, and teamwork. My daily workflow blends school projects with personal side projects, all documented and version-controlled on GitHub.

Work Experience

Senior Draftsperson / Modeller / Checker | Multiplan Pty Ltd | June 2018 – Jan 2023

- Delivered detailed 3D modelling and checking for construction projects
- Ensured accuracy and quality control in structural designs
